

Innovate, Elevate
and Generate Your Idea
To Advance Oral Health!

Meet OUR Panelists

Shils Fund Mission: To recognize, develop and connect innovative health care entrepreneurs to industry leaders to advance oral health and its impact on overall health.

Katie D'Amico, Vice President of Growth & Innovation of CareQuest Innovation Partners

Katie advances the mission of CareQuest through improving oral health for all through identifying, validating, and scaling innovation and integration across the health ecosystem. She accomplishes this through impact investing, Board advisory, accelerator programs including SMILE Health, piloting new programs/ solutions with mission-aligned partners, and conducting clinical studies to derive critical proof points to catalyze change. She has over a decade of experience partnering with large health plans, health systems, and emerging health players including retail, consumer products, technology, and startup companies to design, pilot, and scale innovative solutions for millions of consumers.

Megan Lohman, Co-Founder and Co-CEO of Plan Forward

As the Founder & Co-CEO of Plan Forward, Megan created a turnkey solution that combines a powerful yet easy to understand software that offers a guided approach with proven results. Prior to Plan Forward, Megan gained experience in the business world in sales, marketing, and staffing and recruiting, and even spent a few years as the first employee of a startup. It was by accident that she fell into dentistry where she experienced first-hand the need for dental insurance alternatives for patients. With an entrepreneurial mindset and love of a challenge, Megan shifted her focus to building Plan Forward, seeking to build and deliver high-quality software to dental teams that would streamline and automate dental membership plans. mlohman@planforward.io

Dr. Margaret Scarlett, Chief Science/Technology Officer for Digital Transformation Partners

Margaret Scarlett DMD, is a dentist, futurist and Chief Science/Technology Officer for Digital Transformation Partners. Retired from the US Public Health Service after 20 years, her work centered on analysis of large population- based data sets from the Health Resources and Service Administration, the US Census for the National Health Interview Survey, the Centers for Disease Control and Prevention, and at the Department of Health and Human Services. Now, called Big Data, Dr. Scarlett continues to work with health systems, large DSOs, and dental organizations on Artificial Intelligence in dentistry and others to advance digital transformation of dentistry, with humans at the center of decisions.
